RSVP is necessary to attend. Party with no dinner is 2.50/person.
RSVP list will be passed at Nov 7 meeting all others to club
phone 344-2835. No RSVP-no admittance

LIFE MEMBERSHIPS ARE BEING TAKEN ADVANTAGE OF BY MORE PEOPLE THAN

WE EXPECTED!!!! Herb Rosenthal, AL7G, designed the Life Member
certificates and had a supply printed up. These are very suitable
for framing and hanging in the ham shack. As each lifer is voted
on by the general membership a certificate will be presented.

Each month a list of new life members will be printed in the newsletter.

All regular dues and payments for Life Memberships should be given
to Vickie Fuller, WL7AJV, 243-7391. Life Memberships are \$100 to be
paid in not more than 10 months.

The following have been accepted as Life Members of the Anchorage
Amateur Radio Club, Inc.

1. Wilse Morgan, KL7CQ
2. John Bierman, KL7GNP
3. Robert Hisamoto, KL7AM
4. Bill Reiter, KL7ITI
5. Art Chase, KL7FS
6. David Stevens, KL7EB
7. Walter Burkevich, KL7IW
8. Herb Brasseur, KL7JIG
9. Herb Rosenthal, AL7G

Congratulations to all! Four more are to be voted on in December.

CHRISTMAS PARTY

The December meeting will be held at the Christmas Party on December 5. There are so many activities planned during December that scheduling a party date is difficult--so, it was decided this year to have it early and instead of the regular club meeting.

The party will be at the 6981st Chalet on Elmendorf AFB, beginning at 6:30 p.m., dinner will be served at 7. RSVP's must be made by Nov. 19. There will be a list circulated at the November 7th regular meeting. If you don't make the meeting, the only other RSVP list will be over the club message phone -- 344-2835.

The dinner will be \$7.50 per adult, \$3.00 for children ages 4-12, children 3 and under-free. Dinner will be prepared by the Christmas Party Committee: Cathi, WL7AB0, chairperson-Marian, KL7IT; Tanya, WA1RVG; Vickie, WL7AJV; Sue, WL7ABK; and Betty, KL7AP. If you wish to come for the party and no dinner the cost will be \$2.50

CHRISTMAS PARTY DINNER

TURKEY

HAM

MASHED POTATOES

SWEET POTATOES

JELLO SALAD

GREEN BEAN CASSEROLE

GRAVY

CRANBERRY SAUCE

ROLLS

DESSERT-PIES & CAKES

WASSAIL BOWL

DRINK MIXES

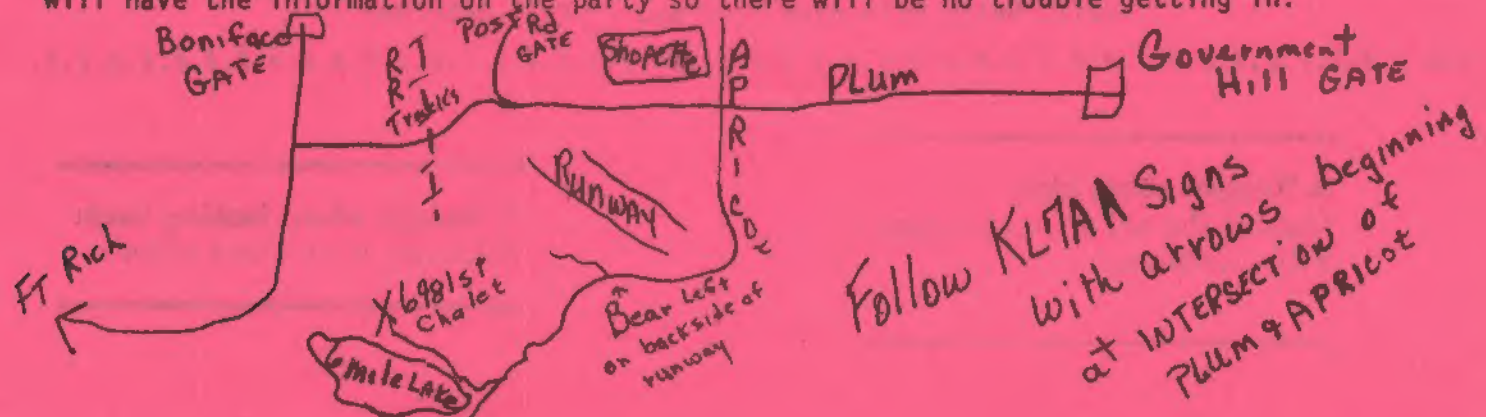

BYOB (bring your own bottle)

If you plan on bringing your children, please bring a small wrapped and labelled gift for "Santa" to present to him from you.

The centerpieces from the tables will be raffled off. Regular door prizes will be drawn for.

We cannot stress enough the cut-off date for the party. Since the committee will be preparing the food we must have an accurate count. If you do not RSVP, you will not be admitted. The \$7.50 and \$3.00 charges will cover the cost of the meal only--this is not a profit-making function. The \$2.50 for no dinner covers drinks.

The 6981st Chalet is on 6 mile Lake on Elmendorf. The guards at the gates will have the information on the party so there will be no trouble getting in.

Wilse, KL7CQ & Betty, KL7AP -- We loaned our mobile magnet mount and 5/8 whip to someone going outside this past summer. We've forgotten who borrowed them but do need them back. If whoever borrowed them has returned from the lower 48, please give us a call. Betty will pick them up. Call-345-1061

#####

Logic is the art of going wrong
with confidence.

A thought about looking back:
Hindsight is an exact science.

GOBBLE FROM THE CHIEF TURKEY...

Well, here we go again. I've been running around Seattle and have lost touch with reality. Back in Alaska I can again appreciate not being in Seattle. Enough of this philosophising...Amateur radio...let's see...

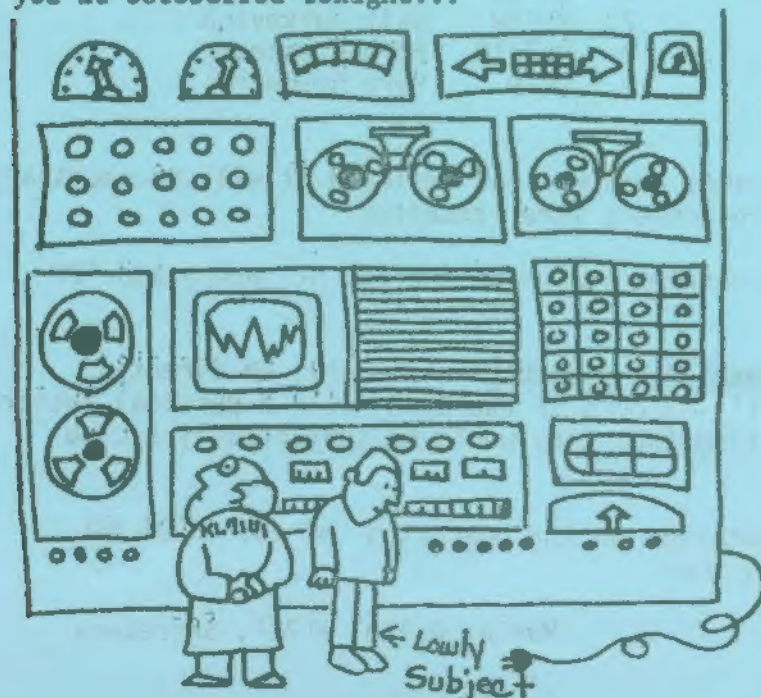

Octoberrod happens the evening this is being written. So far we have had about fifty confirmations from interested hams. We'll be needing lots of people to man checkpoints etc. so if you had to miss the social...don't despair...we still need you.

Due to a snafu in shipping the new antenna for 90-30 was sent motor freight from NJ and we don't have any idea when we're getting a new one...unless Fred Wegmer has heard something new...Therefore, the machine is still using the Ringo and you may experience some of the usual squacks and splutters...Rest assured the situation is being taken care of...

The 292 net is once again getting up to speed with lots more checkins...thanks to KL7HEI and KL7FKO for helping to anchor it down. There has been some confusing about net time...beginning Monday it will go back to the usual time of 1830Z (0830 local) as it has been. There was a bit of a problem with the change from Daylight to Standard time but I guess everything's back together now.

The new life memberships are going fast. Not that there's a limit, but it's really a popular thing. Why not get out of the hassle of trying to remember to pay your dues each year and grab a life membership? It's only \$100 and you'll get a nice certificate and the adulation of thousands...

Enough of this...see you all at the meeting Friday night and I hope by then I'll be reoriented enough to know what's going on...Hope to see some of you at Octoberrod tonight...

GOBBLINGS!!

ANCHORAGE AMATEUR RADIO CLUB

GENERAL MEETING

3 October 1980

Attendance: 78

The meeting was called to order by the President, Chip Lewis, and introductions were held.

Recent contributions from committee chairmen were acknowledged from Dan Rogers, KL7ICP, and Art Chase, KL7FS, for the Arts Fair, and Wilse Morgan, KL7CQ, and Dave Zugsberger, KL7FO, for the Flea Market.

Witse Morgan reported that the Flea Market was a roaring success, with net proceeds near \$2500. The raffle tickets brought in \$1500 and could have made more if all the tickets had been sold. Dan Rogers reported that the instruction book for the new rotor, beam, and antenna had disappeared during the Flea Market and asked that it be returned. Witse invited members to contribute to a fund for defraying the expenses incurred in supporting the visit of Mary Lewis, W7QGP, during the Flea Market.

It was announced that the Octoberrod, the October social kickoff for the Iditarod, will be held at Barbaricks October 30 at 7:00. Volunteers are needed for the Iditarod coverage. The Headquarters Station this year will be located at the Iditarod Headquarters at the Sheraton Hotel in Anchorage.

The President noted a communique from the FCC announcing a change in the systems for license examinations. It was noted that a letter had been received from Ted Stevens indicating that work was continuing on relocating the FCC monitoring station.

It was moved and seconded that the club institute a new classification for Life Memberships at a cost of \$100 payable either at one time or over a period of ten months, individual memberships to be subject to approval of the general membership. The motion was carried. The group then proceeded to vote individually to accept the following for Life Membership:

- | | | | |
|------------|--------------|-----------|----------------|
| 1. KL7CQ | Witse Morgan | 6. KL7EB | Dave Stevens |
| 2. KL7 GNP | John Bierman | 7. KL7IW | Walt Burkevich |
| 3. KL7AM | Bob Hisamoto | 8. KL7JIG | Herb Brasseur |
| 4. KL7ITI | Bill Reiter | 9. AL7G | Herb Rosenthal |
| 5. KL7FS | Art Chase | | |

It was noted that because the present chairman has resigned it will be necessary to reestablish the VHF Committee and volunteers were requested.

Al Bianco, KL7FK0, described the current status of the 292 net and asked for increased participation.

Herb Rosenthal suggested that a meeting, possibly in January, be directed toward old timers and hams not currently members of the club, with a personal letter from the President to each one indicating that they would be contacted by a club member.

The program consisted of a presentation on the operation of the local QSL Bureau by managers John and Dottie Bierman.

Marian Arlin, KL7IT, Secretary

T C A

TCA (TRANS-CONTINENTAL ALASKA) TRAFFIC SYSTEM

If you have heard the term TCA Rep. on either 14.292 or the evening, Alaskan nets and have not known what it is, please read on. Or, if you have a desire to handle formal written traffic, TCA is for you.

TCA is part of the National Traffic System, which handles written traffic via amateur radio throughout the United States. Because of propagation problems, Alaskans have frequent difficulty checking into the national net or the Region 7 net (of which we are a part). So TCA was devised by Vic, W7VSE, to set up one-on-one schedules of Alaskan operators with west coast operators to pass traffic to and from Alaska. There are two schedules per day: one with incoming messages and one with outgoing traffic.

The Alaskan station with the morning schedule needs to meet the Alaskan nets on 75m and 40m the night before to collect messages. He then passes them on to his contact the next morning (he may also receive any incoming messages). Stations are to meet on 14.292, but then can move to any frequency they prefer. The time is set by the two stations involved to best fit their personal schedules.

The Alaskan station with the afternoon schedule meets his contact on 14.292 at their prearranged time and picks up any traffic for Alaska. He may also deliver any outgoing traffic he may have. If the traffic is for his area, he delivers the message. If it is for another town, he meets the evening net and relays the traffic to another amateur for delivery. If there is no out-of-town traffic, he need not meet the evening nets at all.

All TCA schedules are to be kept even if there is no traffic for that day. This guarantees consistency of the schedules. All times are stated in zulu time, but are adjusted each spring and fall for time changes of Standard and Daylight times. The schedules times remain the same local time regardless of the season; only the zulu time changes (e.g., a 1pm local schedule will be at 2200z in summer, 2100z in winter). All times in the below schedule are based upon Alaska Standard Time, as we have just changed. The average time taken by a schedule is 5 minutes, so you can see it is easy and not inconveniencing to most people's schedules.

Operators are needed for the holes in the below schedule, and also are needed as stand-by operators to fill in during vacations, etc.

<i>Alaska Outgoing</i>		STATION M	STATION N	<i>MORNING</i>	TIME

IMPORTANT NOTE=====reprinted from"HR Report"

TURKEY IS OFF THE AIR again, and TALMB told his QSL manager, K2UO, all mail is being checked by the authorities. DO NOT mail anything to any Turkish Amateur at this time, as it could cause him very severe problems. (thanks, The DX Bulletin)

#####

ALSO REPRINTED FROM HR REPORT, OCT. 17, 1980

10, 18, AND 24 MHZ AREN'T YET available for Amateur use, the FCC has warned the Amateur community in a Public Notice released this week. Responding to a growing number of inquiries and comments from individual Amateurs that indicated some confusion about new band availability, particularly in light of the new equipment currently being promoted as covering these new bands, the Commission pointed out that there are a number of steps that are necessary before the phase-in dates can even be set. First will come Senate ratification of the WARC treaty, then the normal rule making procedures to set the limits on band usage and the moving of present band users to their new frequencies.

Though The 18 And 24 Mhz Bands don't have to become Amateur bands until 1989, the Commission did give some hope that we can actually be on them considerably sooner. With luck we may also make it on 10.1 Mhz on January 1, 1982, as established by the WARC agreements.

A Special Meeting On WARC implementation has been scheduled by the Commission for November 25, in Washington. The purpose of the meeting is to review the first of four planned Notices of Inquiry prior to public release. The FCC is expected to deal with the WARC-79 frequency table below 28 Mhz in the first NOI, to be followed with other NOIs for 28-960 Mhz, 960 Mhz-40 GHz, and above 40 GHz. A series of coordination meetings have been planned between the FCC and NTIA in preparation for the State Department's presentation of the Certified Final Acts to the Senate. Certified copies of these acts have not yet been received by either the State Department or the FCC.

ANCHORAGE AMATEUR RADIO CLUB

Board of Directors Meeting

22 October 1980

Present: Cathi Moody WL7ABO Activities Manager Board Members:
Fred Wegmer KL7HFM Past President
Marian Arlin KL7IT Secretary John Bierman KL7GNP
Dave Zugsberger KL7FO Treasurer Lloyd Fuller KL7JGN
Bill Reiter KL7ITI Club Station Trustee Wilse Morgan KL7CQ
Steve Norrell KL7IYX
Absent: Chip Lewis, KL7IUI; Herb Brasseur, KL7JIG; Betty Rhodes KL7AP
Paul Bestry, KL7FV; Dave Cloyd, KL7M Dan Rogers KL7ICP
Herb Rosenthal AL7G
Also Present: Martha (WL7AJS) and Dennis (KL7JHR) Ogren,
Roy Hansen, KL7GQ

The meeting was called to order by the Activities Chairman, Cathi Moody, at the QTH of Marian (KL7IT) and Norman (KL7IA) Arlin.

TREASURER: Dave Zugsberger presented the current financial report. He is still working on the application changing the IRS classification from Social to Educational/Public Service. He announced that a change in the club telephone number will be in effect January 30, 1981.

A Budget and Finance Committee to prepare a budget for the coming year was named, to consist of Chip Lewis, Chairman, Dave Zugsberger, Art Chase, KL7FS, Martha Ogren, and Dan Rogers.

MEMBERSHIP: It was announced that the club now has 12 fully-paid life members. (A thirteenth, Roy Hansen KL7GQ, was added during the meeting.) Any future life members should pay dues to the Membership Chairman, Vicki Fuller, WL7AJV. It was suggested that a ledger be purchased to exclusively record Life Membership data including names, dates, certificate numbers, etc. A motion was passed to provide for the Treasurer to place Life Membership monies into a permanent fund which will be invested, with subsequent interest to go into the general fund. Herb Rosenthal displayed Life Membership certificates which have been printed from his design.

A motion was passed to authorize expenditure of \$200 by the Membership Chairman for ARRL supplies such as flags and shoulder patches.

ACTIVITIES: Cathi Moody, Activities Chairman, reported on plans for the Christmas Party. A motion was carried authorizing the club to acquire permanent reflective KL7AA direction signs for use at this and future events. A charge of \$7.50 per adult and \$3.00 for children aged 4-12 will be levied to defray expenses, monies to be collected at the door. Members will not be admitted without reservations, RSVP to be furnished either at the club meeting or via the club phone by November 19. The Committee was authorized to draw \$500 in advance to cover expenses of food, door prizes, and other arrangements.

UNFINISHED BUSINESS: Reasons for delay in installing equipment at the Pioneers Home were discussed. Wilse Morgan will call Ed Lochrie, KL7ED, to determine whether the club can assist the state in getting equipment installed. It turns out that the Speak and Spell device is inappropriate for Faye Johnstone, and it was suggested that the club continue to look into provision of a communication device that would be useful to her and other Pioneers Home residents

A permanent meeting place for the Board has not been secured.

The Girdwood School opening, in which the AARC was to participate, has been delayed.

Motions were passed to pay for expenses incurred as follows: \$165.52 to John Bierman, with \$100 of that to be used as payment for a Life Membership; \$22.44 to Fred Wegmer, with \$20 credited to the Life Membership account; and \$133.27 to Herb Rosenthal for expenses incurred in printing of the Life Membership certificates.

Cathi Moody brought up the need for an Education Chairman who would establish alternative education routes to upgrading skills.

Roy Hansen, KL7GQ, was appointed HF Chairman, with an initial charge of locating storage space for the club's new equipment.

Considerable discussion examined means of increasing participation of amateurs in club meetings. A variety of speakers and programs and methods of honoring old timers were suggested. Fred Wegmer will provide a personality sketch of Faye Johnstone for the next newsletter.

NEW BUSINESS: A letter from Don Bush, Emergency Coordinator, describing the events of the Prinsendam episode, was circulated. It was agreed that the contribution of Roy Hansen, KL7GQ, in going to Valdez to run traffic should be recognized at the general meeting and that he should be reimbursed for his out-of-pocket expenses by member contributions.

The possibility of a contingency fund to be used in the event of emergencies for expense money was discussed. Steve Norrell will write a proposal for presentation at the next Board meeting.

Fred Wegmer suggested a recognition certificate for people who have significantly helped the club, as well as for regular members who have made outstanding contributions. A motion was carried to provide for authorization of two types of recognition certificates, one in general appreciation and another for special appreciation, the latter awards to be controlled by vote of the Board of Directors.

Steve Norrell reportedd that the meeting room is being re-reserved for next semester.

It was noted that the Ham of the Year is to be elected at the January meeting. Nominations will be requested in the newsletter.

The President will be requested to designate a Custodian to take charge of club records and prepare a club scrapbook containing photographs and other mementoes of club activities, with possible inclusion of past records if such can be located.

The meeting was adjourned.

Marian Arlin, KL7IT, Secretary

Happy

Thanksgiving!

Polar Amateur Radio Klub of Alaska

The annual P P P P P (Parka Progressive Potluck Party for Particular People) will be over by the time this newsletter is received. Approx. 34 were expected to show up. We're sure it was fun for all.

Grace, KL7DLA and OM, Luther have headed for the Mayo Clinic for an indefinite stay. Luther is scheduled to possibly have heart surgery--Hope everything goes well--will look forward to having them back.

Ellen Paneok has taken on the task of carving the PARKA pins for past officers. She had a booth for her ivory carving at the Flea Market. Her artistry as well as carvings are beautiful. She does take orders other than just at the Flea Market, call Patti Olson for her address. She is KL7IDM's YL and is working on her ham license.

We voted to send \$100 to the YLRL scholarship fund again this year. Two upgrades were done this month--WL7ABO, Cathi, made it to General. WL7ABK, Sue, got her Advanced with an offer from her OM, Tim, to get the Extra manual & code tapes.

Ann Walker, KL7GS, had a baby girl in August --we had a mini baby shower for her at the October meeting.

Lucy, KL7LH, will not be holding any classes until January. Her daughter, Lynn, KL7IO will be moving to the lower 48 the first week in November. So, with one thing and another from now until the New Year, she decided to take a vacation from teaching. Will let you know when the new classes start up again.

Guest speaker for the November meeting will be William F. Lee III (Chip), KL7IUI. Have no idea what he is going to teach, lecture or show us.

The Christmas party will be instead of the usual monthly meeting on December 9 at Tanya's QTH on Elmendorf. Party will start at 6:30 p.m. Directions will be given at the November meeting.

PARKA is open to all interested women--women interested in Amateur Radio that is. Our meetings are on the 2nd Tuesday of each month at the Grandview Gardens Library. The technical portion (speaker) is at 7 p.m. with the general meeting beginning at 8.

For further information call the AARC phone 344-2835 or Cathi, WL7ABO, 694-2835.

THE ANCHORAGE AMATEUR RADIO CLUB, INC. IS AFFILIATED WITH THE ANCHORAGE COMMUNITY COLLEGE AND THE UNIVERSITY OF ALASKA, ANCHORAGE, THROUGH THEIR NON-PROFIT COMMUNITY SERVICES PROGRAM.

The Anchorage ARC is co-edited by Tanya Delancy, WA1RVG, and Betty Rhodes, KL7AP. Articles are welcomed for publication. Call us for pick-up. If you don't have a typewriter just write it out legibly and we will type it. Deadline for the December newsletter will be Nov.23.

A thought about work:
Any task worth doing was
worth doing yesterday.
